

LASIK MD doctors present research at 2019 Refractive Surgery Subspecialty Day

SAN FRANCISCO, CALIFORNIA, October 11, 2019 – LASIK MD co-founders Dr. Avi Wallerstein and Dr. Mark Cohen, along with research partner Dr. Mathieu Gauvin, were invited to present at this year's Refractive Surgery Subspecialty Day, hosted by the American Academy of Ophthalmology. This annual meeting of the International Society of Refractive Surgery is a gathering of the world's best on refractive surgery, with 60 doctor invitees and 45 talks delivered at the event.

Their presentation revolved around their recent research, titled [Primary Topography-Guided LASIK: Treating Manifest Refractive Astigmatism Versus Topography-Measured Anterior Corneal Astigmatism](#), published in the *Journal of Refractive Surgery*. In it, they conducted a retrospective analysis of 1,274 consecutive eyes between June 2017 and March 2018 to determine if topography-guided LASIK with Contoura leads to better refractive outcomes compared to treating on the clinical manifest refractive astigmatism axis. The presentation was part of a session called Hottest Breaking News in Refractive Surgery, where Dr. Wallerstein was among 11 other presenters discussing the latest in refractive news.

About LASIK MD

LASIK MD is a national provider of laser and intraocular lens vision correction procedures in Canada. Throughout its nearly 20-year history, the company has been dedicated to treating patients with state-of-the-art technology at affordable prices. LASIK MD operates over 30 clinics across the country, and has a team of more than 50 experienced surgeons who have collectively performed more than one million procedures. The company also partners with thousands of optometrists in Canada, who themselves refer patients and trust their own eyes to LASIK MD. Renowned for its exceptional medical and business practices, LASIK MD is the recipient of Deloitte's Best Managed Company Platinum Club Status, which is awarded to those organizations who have retained their Best Managed Companies status for seven or more consecutive years.
